## Remote Microphone Systems Cochlear Implants and Speech Testing

Dates: Thursday 26th March 2026 | 09:45 – 16:30

Friday 27th March 2026 | 09:00 – 16:00

£95 (includes lunch & refreshments)

**University of Southampton, Building 4, Highfield Campus.**

<https://w3w.co/hungry.marked.waving>

This two-day course will provide information about remote microphone systems (RMS), fitting them, checking them, and assessing their benefit in line with the 2025 national Quality Standards and Good Practice Guidance.

### **Advanced Bionics, Cochlear, Connevans, MED-EL, & Phonak**

Presentations, Hands-on workshops, group sessions and sharing local practice:

- Fitting options, policies and national guidance: verification and validation of RMS.
- Using RMS with speech processors.
- Extending the benefits of devices – accessible communication in class and online.
- Verification of speech processors with Hearing Instrument Test boxes.
- Validation with speech perception tests.
- Reviewing personal experiences: discussion and feedback sessions
